ABOUT ME

I am Jale Hemidova and 20 years old. I studied at the Faculty of Information Technologies and Management at Azerbaijan State Oil and Industry University. I have expertise as a front-end developer and have skills in some several small projects. I have experienced in using React JS, REST APIs. I am interested in problem-solving, learning new technologies and using them in projects. I think as a self-learner, i'm learning very quickly. I'm looking forward to gaining more experience in Front End Development.

ADDITIONAL SKILLS

- Adaptability
- Analytical
- Commitment to excellence
- Decision-making
- Problem-solving
- Team working
- Time management
